

Messaging Sheet

MFC-L8650CDW

Professional quality printing, copying, scanning and faxing that's faster, leaner and better connected

Speed is everything in a competitive marketplace and the MFC-L8650CDW – replacing the MFC-9460CDN and MFC-9465CDN – delivers print that's not only faster, but also more productive, smarter and more economical.

Best in class print speeds of up to 28ppm - colour or mono - keep productivity up, whilst high yield toners and automatic 2-sided printing keep running costs down.

With a 9.3cm TS LCD screen, all users can quickly select this multifunction printer's many easy-to-use features and settings. And if they're tied up elsewhere, they can still take advantage of its comprehensive mobile connectivity to scan, print and share from their smartphones and tablets using Brother's specialist apps.

Catalogue Specification

- Print professional colour documents at 28ppm mono/colour
- Mobile/Tablet connectivity including AirPrint, Google cloud print and WiFi direct
- Automatic Duplex print, copy, scan and fax

Target Audience

SMB

The new L8000 range is designed for the Small to Medium Business (SMB) market, with a host of benefits to make their printer more business partner than sparring partner

- Impactful and professional reports, client presentations and marketing materials
- Connectivity across Android, Apple, Blackberry and Windows for printing from, and scanning to, smartphones and tablets
- Perfect for growing number of BYOD workplaces in the SMB market
- Front-loading consumables, ideal for tight spaces
- Intelligent scanning – digitise hardcopy documents and edit in Microsoft Office
- Scanning/Document management for easy document digitisation, archiving and access to high numbers of documents
- Colour and black and white copying
- Secure function lock – restrict access to features such as colour copying for better cost management
- Built in printer management features and reliable performance for more efficient remote management
